BRAND NEW 2023 BENTLEY TRICYCLE MULLINER

The Bentley Mulliner Tricycle was inspired by the **Bentley Continental GT Mulliner**, a luxury limited edition car that was designed by the famous Bentley Motors LTD and had a selling price of \$1.5 million. It was so exclusive that only 12 units were available.

Known as an ultra-luxury vehicle among Grand Turismo, the Bentley Mulliner was sold shortly after it made its debut to the market, in 2020.

In 2023, we are thrilled to introduce the Bentley Mulliner Tricycle, a deluxe, Bentley Mulliner style tricycle for children.

2023 BENTLEY MULLINER TRICYCLE'S KEY FEATURES

The details of the tricycle were reproduced using the original 3D files of Bentley designers.

2023 BENTLEY MULLINER TRICYCLE'S KEY FEATURES

PEDAL

The new metal pedal with anti-slide surface design is the exact replica of the Bentley Mulliner gas pedal.

FRAME

The color on the tricycle's frame comes from Bentley palette's color, White Sand. The White Sand paired with beige fiber, black faux leather and black dull details are all inspired by the interior of a Bentley Mulliner.

WHEELS

The tricycle's wheels follow Bentley Mulliner GT wheel design to a tee. In fact, there's a branded logo in the middle of the disk surrounded by the "Bentley Mulliner" sign, like you would find on the wheels of the original Bentley Mulliner. The wheel-center cap ensures the "B" badge is always in the motionless upright position, even when the tricycle is riding!

2023 BENTLEY MULLINER TRICYCLE'S KEY FEATURES

PARENT'S BAG

The new level-up parent's bag was thoughtfully manufactured for the Bentley Mulliner Tricycle with best-in-class faux leather and handmade "Double Diamonds" stitching. This bag keeps the form, equipped with a magnetic buckle and "Bentley" badge on the metal pad.

MAGNETIC BUCKLE

The up-to-date "Bentley" labeled magnetic buckle combined with the elastic 5-point belt ensures optimal safety and trust from one hand and the simplicity of usage from another.

INSERTS ON THE HANDLEBAR GRIPS

In an effort to keep one of the most noteworthy benefits of the previous model's exterior, there are handmade cross-stitching leather inserts on the handlebar grips, safety guard, and parent remote control.

Fifty percent of the Bentley Mulliner Tricycle requires assembly. You'll receive the completely preassembled frame with rear wheels plus front wheel, fork, seat and rest pieces you can assemble with ease. Assembly time should not exceed 10 minutes

2023 BENTLEY MULLINER TRICYCLE'S KEY FEATURES

THE DOUBLE DIAMONDS STITCHING

The Double Diamonds stitching symbolizes the brilliant facets, a remarkable element of Mulliner design. We use this design pattern in the new 2023 Bentley Tricycle model on both the portable footrests for toddlers and foldable footrests for older children.

SEAT FIBER PAD

We have developed a new seat fiber pad, specifically for this model. With assistance of soft inserts, this seat simulates the shape of the car seat and ensures extra-comfort for your child's ride.

Once again, the tricycle's design follows one of Mulliner's unique elements, Double Diamonds handmade stitching that you would see in a Bentley car. The Bentley badge is stitched on the soft headrest.

MODEL DESCRIPTION

SKU: BN1M-GLD

2023 BENTLEY TRICYCLE MULLINER

Frame color: White Sand from the Bentley Motors color palette

Canopy and accessories color: Black

Seat color: Beige

Stitching Color: Beige & Black (seat)

- ▶ Parent bag with branded Double Diamonds stitching and magnetic buckle
- ▶ Covered trunk
- ▶ Parking brake
- ▶ Cup holder

MODIFICATIONS

STAGE 1 (6 month +):

A seat with a 180-degree rotation and accessory toddlers' footrests ensures a safe, comfortable tricycle for children as young as 6 months.

STAGE 2 (18 months+):

A waterproof canopy protects your little one from the rain, extreme wind and harsh sun rays. The canopy folds in 2 positions with different deflection angles.

STAGE 3 (3 years +):

We recommend removing the tricycle canopy and parent handlebar and replacing the parent handlebar with the protective rubber plug. This will enable your child to ride independently.

STAGE 1

The backrest tilt can be adjusted to 2 positions while the height of the parent ride control handlebar may be adjusted as well.

STAGE 2

When necessary, the accessory footrests and canopy can be removed effortlessly.

STAGE 4 (3.5 years +):

We recommend removing the backrest, safety belts, footrests, safety guard and trunk from the tricycle. This will ensure your older little one can ride comfortably.
