

Tricycle & Pushchair.

Our tricycles and Push Chairs support many functions such as folding and rotation seat which enables two directions usage etc., while growing with your kids from age 10 Months to 6 years old. For most of the models you can use them as a stroller at the beginning, and as a basic tricycle when your kids grow old enough for independent pedaling.

Rito Foldable Trike.

Rito is the first Folding tricycle in QPLay range. One of the main advantages of its folding mechanism - you don't need to carry it when it is folded. When it's folded - you can either put it somewhere (for instance - in the trunk of your car) or you can just pull it behind yourself, like a trolley. This trike has several versions: you can choose EVA or inflatable wheels; you can take a version with an extra infant footrest and with a huge mommy bag in the rear part. Of course, this model has an unusual design and lots of other small options that can make a Baby happier and the life of parents easier.
